Give Hope to Young Hearts on May 7th!

Dear Friends,

We are very proud to announce that the 1st Annual Hope for Hearts Gala will be held on Thursday, May 7th 2015 at the Riviera Parque in Vaughan.

The Hope for Hearts Gala is a special evening event dedicated to supporting Heart Research at the Hospital for Sick Children. We are excited for the opportunity to provide our guests and sponsors with a great dinner, unique performances, special guests and a silent and live auction.

Thanks to the extensive and innovative research conducted by our team, we are currently able to change a child's future by detecting and beginning treatment of the cardiac abnormality as early as 18 to 30 weeks into pregnancy. We were the first team in Canada performing cardiac interventions on the fetus and we also developed novel techniques that allow us to better understand the impact of heart defects on heart muscle and brain development and function. Early detection of cardiac abnormalities is crucial not only to prevent damage of the heart, but also to other organs, particularly the brain. Children with heart disease deserve a better life.

Changing the life expectancy and the quality of life of children with heart disease is our mission and we are excited about our first event, and we hope you will honour us with your presence.

With your support we can make a difference in children's lives. On behalf of our entire team, we look forward to meeting you at the Gala.

Sincerely,

Dr. Barbara Cifra

Dr. Luc Mertens

ABOUT HOPE FOR HEARTS

Each year, 1 out of every 100 babies born has a heart defect and more than half need surgery to survive.

The Hope for Hearts Gala was developed to support heart research performed in the Echocardiography Laboratory at the Hospital for Sick Children. Each year the laboratory performs more than 14,500 echocardiograms, and the diagnostic information generated is key to the care and treatment programs for children with heart disease. Funds raised at our very first gala, will help strengthen our research, advance the echocardiography program and improve diagnosis and patient care for the treatment of heart disease. You will also have the opportunity to meet a team of people who are making a real difference in children's health. With your support, we know we can change the outcome for children with heart abnormalities.

2015 Hope for Hearts Gala Sponsorship Options
